

Table of Contents FreeBSD Handbook 20031130

Preface	i
I. Getting Started	i
1. Introduction	1
1.1 Synopsis	1
1.2 Welcome to FreeBSD!	1
1.3 About the FreeBSD Project	4
2. Installing FreeBSD	9
2.1 Synopsis	9
2.2 Pre-installation Tasks	9
2.3 Starting the Installation	15
2.4 Introducing Sysinstall	24
2.5 Allocating Disk Space	29
2.6 Choosing What to Install	41
2.7 Choosing Your Installation Media	43
2.8 Committing to the Installation	45
2.9 Post-installation	46
2.10 Supported Hardware	86
2.11 Troubleshooting	86
2.12 Advanced Installation Guide	88
2.13 Preparing Your Own Installation Media	89
3. UNIX Basics	95
3.1 Synopsis	95
3.2 Virtual Consoles and Terminals	95
3.3 Permissions	98
3.4 Directory Structure	100
3.5 Disk Organization	101
3.6 Mounting and Unmounting File Systems	107
3.7 Processes	110
3.8 Daemons, Signals, and Killing Processes	111
3.9 Shells	113
3.10 Text Editors	115
3.11 Devices and Device Nodes	115
3.12 Binary Formats	116
3.13 For More Information	118
4. Installing Applications: Packages and Ports	120
4.1 Synopsis	120
4.2 Overview of Software Installation	120
4.3 Finding Your Application	122
4.4 Using the Packages System	122
4.5 Using the Ports Collection	124
4.6 Post-installation Activities	131
4.7 Dealing with Broken Ports	132
5. The X Window System	133
5.1 Synopsis	133

5.2 Understanding X	133
5.3 Installing XFree86™	135
5.4 XFree86 Configuration	136
5.5 Using Fonts in XFree86	139
5.6 The X Display Manager	143
5.7 Desktop Environments	145
II. System Administration	151
6. Configuration and Tuning	152
6.1 Synopsis	152
6.2 Initial Configuration	152
6.3 Core Configuration	153
6.4 Application Configuration	154
6.5 Starting Services	155
6.6 Configuring the cron Utility	156
6.7 Using re under FreeBSD 5.X	157
6.8 Setting Up Network Interface Cards	159
6.9 Virtual Hosts	163
6.10 Configuration Files	163
6.11 Tuning with sysctl	167
6.12 Tuning Disks	168
6.13 Tuning Kernel Limits	171
6.14 Adding Swap Space	173
6.15 Power and Resource Management	175
7. The FreeBSD Booting Process	177
7.1 Synopsis	177
7.2 The Booting Problem	177
7.3 The MBR, and Boot Stages One, Two, and Three	178
7.4 Kernel Interaction During Boot	182
7.5 Device Hints	182
7.6 Init: Process Control Initialization	183
7.7 Shutdown Sequence	184
8. Users and Basic Account Management	185
8.1 Synopsis	185
8.2 Introduction	185
8.3 The Superuser Account	186
8.4 System Accounts	187
8.5 User Accounts	187
8.6 Modifying Accounts	187
8.7 Limiting Users	192
8.8 Personalizing Users	195
8.9 Groups	195
9. Configuring the FreeBSD Kernel.	197
9.1 Synopsis	197
9.2 Why Build a Custom Kernel?	197
9.3 Building and Installing a Custom Kernel	198
9.4 The Configuration File	200

9.5 Making Device Nodes	214
9.6 If Something Goes Wrong	214
10. Security	217
10.1 Synopsis	217
10.2 Introduction	217
10.3 Securing FreeBSD	219
10.4 DES, MD5, and Crypt	225
10.5 One-time Passwords	226
10.6 KerberosIV.	231
10.7 KerberosS	238
10.8 Firewalls	246
10.9 OpenSSL	255
10.10 VPN over IPsec	256
10.11 OpenSSH	266
10.12 Mandatory Access Control (MAC)	270
10.13 File System Access Control Lists	273
10.14 FreeBSD Security Advisories	275
11. Printing	278
11.1 Synopsis	278
11.2 Introduction	278
11.3 Basic Setup	279
11.4 Advanced Printer Setup	291
11.5 Using Printers	318
11.6 Alternatives to the Standard Spooler	326
11.7 Troubleshooting	326
12. Storage	330
12.1 Synopsis	330
12.2 DeviceNames	330
12.3 Adding Disks	331
12.4 RAID	333
12.5 Creating and Using Optical Media (CDs & DVDs)	337
12.6 Creating and Using Floppy Disks	343
12.7 Creating and Using Data Tapes	345
12.8 Backups to Floppies	347
12.9 Backup Basics	349
12.10 Network, Memory, and File-Backed File Systems	355
12.11 File System Snapshots	359
12.12 File System Quotas	360
12.13 Encrypting Disk Partitions	363
13. The Vinum Volume Manager	368
13.1 Synopsis	368
13.2 Disks Are Too Small	368
13.3 Access Bottlenecks	368
13.4 Data Integrity	370
13.5 Vinum Objects	370
13.6 Some Examples	372

13.7 ObjectNaming	378
13.8 Configuring Vinum	381
13.9 Using Vinum for the Root Filesystem	382
14. Localization - I18N/L10N Usage and Setup	388
14.1 Synopsis	388
14.2 The Basics	388
14.3 Using Localization	389
14.4 Compiling I18N Programs	394
14.5 Localizing FreeBSD to Specific Languages	394
15. Desktop Applications	399
15.1 Synopsis	399
15.2 Browsers	399
15.3 Productivity	402
15.4 Document Viewers	405
15.5 Finance	407
15.6 Summary	408
16. Multimedia	410
16.1 Synopsis	410
16.2 Setting Up the Sound Card	410
16.3 MP3 Audio	414
16.4 Video Playback	417
17. Serial Communications	426
17.1 Synopsis	426
17.2 Introduction	426
17.3 Terminals	430
17.4 Dial-in Service	435
17.5 Dial-out Service	442
17.6 Setting Up the Serial Console	445
18. PPP and SLIP	453
18.1 Synopsis	453
18.2 Using User PPP	453
18.3 Using Kernel PPP	465
18.4 Troubleshooting PPP Connections	472
18.5 Using PPP over Ethernet (PPPoE)	475
18.6 Using PPP over ATM (PPPoA)	477
18.7 Using SLIP	481
19. Advanced Networking	491
19.1 Synopsis	491
19.2 Gateways and Routes	491
19.3 Wireless Networking	495
19.4 Bluetooth	501
19.5 Bridging	509
19.6 NFS	511
19.7 Diskless Operation	516
19.8 ISDN	521
19.9 NIS/YP	525

19.10 DHCP	540
19.11 DNS	544
19.12 NTP	556
19.13 Network Address Translation	559
19.14 The inetd "Super-Server"	562
19.15 Parallel Line IP (PLIP)	566
19.16 IPv6	568
20. Electronic Mail	573
20.1 Synopsis	573
20.2 Using Electronic Mail	573
20.3 sendmail Configuration	574
20.4 Changing Your Mail Transfer Agent	577
20.5 Troubleshooting	579
20.6 Advanced Topics	582
20.7 SMTP with UUCP	584
20.8 Using Mail with a Dialup Connection	586
20.9 SMTP Authentication	587
21. The Cutting Edge	589
21.1 Synopsis	589
21.2 FreeBSD-CURRENT vs. FreeBSD-STABLE	589
21.3 Synchronizing Your Source	592
21.4 Using make world	593
21.5 Tracking for Multiple Machines	??
22. Linux Binary Compatibility	??
22.1 Synopsis	??
22.2 Installation	??
22.3 Installing Mathematica®	??
22.4 Installing Maple™	??
22.5 Installing MATLAB®	??
22.6 Installing Oracle®	??
22.7 Installing SAP® PJ3®	??
22.8 Advanced Topics	??
III. Appendices	??
A. Obtaining FreeBSD	??
A.1 CDROM and DVD Publishers	??
A.2 FTP Sites	??
A.3 AnonymousCVS	??
A.4 Using CTM	??
A.5 Using CVSup	??
A.6 CVS Tags	??
A.7 AFS Sites	??
A.8 rsync Sites	??
B. Bibliography	??
B.1 Books & Magazines Specific to FreeBSD	??
B.2 Users Guides	??
B.3 Administrators' Guides	??

B.4 Programmers' Guides	??
B.5 Operating System Internals	??
B.6 Security Reference	??
B.7 Hardware Reference	??
B.8 UNIX History	??
B.9 Magazines and Journals	??
C. Resources on the Internet	??
C.1 Mailing Lists	??
C.2 Usenet Newsgroups	??
C.3 World Wide Web Servers	??
C.4 Email Addresses	??
C.5 Shell Accounts	??
D. PGP Keys	??
D.1 Officers	??
D.2 Core Team Members	??
D.3 Developers	??
Colophon	??
